OUR HIVIZ® CUSTOMER COMMITMENT

Innovation & Performance are What We Do

HIVIZ® began in 1996 with a single product and the goal of advancing the art of shooting. For more than 25 years we have been committed to this goal by continuing to offer high quality and innovative products for shotguns, handguns, and rifles. From our unique, molded LitePipes to our patented LiteWave H3® Tritium/fiber-optic sights we continue to strive to be a leader in the shooting world. Today, as in the day we started, we are committed to providing you, our valued and loyal customers, with the best sights available to increase your success and enjoyment of the shooting sports.

We are proud to be installed as original equipment on many major brands including Ruger, Smith & Wesson, Benelli, Browning, Henry Repeating Arms, and Remington.

HIVIZ® TECHNOLOGY

ENGINEERED FOR BRIGHTNESS, DESIGNED FOR RUGGEDNESS

HANDGUNS

HIVIZ® LITEWAVE H3® SIGHTS

The HIVIZ® LiteWave H3® line of sights for handguns and shotguns combines Tritium with our very own legendary fiber-optic LitePipes for 24-hour illumination to bring you true day and night performance. The all-steel sight sets are rugged and dependable, designed for the roughest use, whether it is personal defense and protection, Law Enforcement or Military.

The LiteWave H3 line ensures fast sight acquisition and a bright sight picture day or night. The patented LiteWave H3 carries a 12-year Tritium warranty for loss of illumination. Available for many popular handgun models, the LiteWave H3 sights duplicate factory sight heights to ensure the same fit with holsters and accessories as factory sights.

LITEPIPE TECHNOLOGY

No other sight company offers the simple interchangeability of LitePipes that HIVIZ® does. Our unique molded LitePipes allow you to remove, replace and reuse the LitePipe. This offers shooters of all disciplines the opportunity to “customize” their sight picture, any place, at any time.

Our LitePipe combinations offer quick and easy target acquisition in any light condition. LiteWave handgun front sights come with White, Red and Green pipes while rear sights come with two Black, two Red and two Green pipes. Stock up on every color and size to customize your sight picture.

LITEWAVE®
TECHNOLOGY

HIVIZ® LITEWAVE® SIGHTS

HIVIZ® LiteWave® SightS were designed to take the firearm sight to the next level. This innovative design features an integral LitePipe lock while the exoskeleton design adds to the durability of the LiteWave design. This results in an incredibly bright sight picture in a variety of shooting conditions. All LiteWave sightS are holster friendly and ready for rigorous use on the range or in the field.

ORIGINAL SIGHTS

Durable sightS with interchangeable LitePipes in a variety of color options for an easily customized sight picture.

OVERMOLDED SIGHTS

The LitePipes in our Overmolded sightS are locked in place with a clear resin that is injection molded around the LitePipe giving this design unsurpassed durability.

RUGER SUPER REDHAWK
ALASKAN FRONT SIGHT
PAGE 17

SHOTGUNS

MAGNETIC SIGHTS

We set the standard for magnetic sightS! Easy to attach with strong, rare-earth magnets for a solid sight picture, giving you options with interchangeable LitePipes.

SCREW ATTACH SIGHTS

Screw Attach sightS offer the most worry free and secure mounting option. Available in a variety of styles and colors.

PLAIN BARREL SIGHTS

These sightS are designed specifically for shotguns without ribs. The simple snap-on design offers interchangeable LitePipes in an easy-to-attach design for any plain-barrel shotgun.

**IF YOU ARE SIGHTING
WITH THE PROPER
EYE, YOU'LL SEE THE
FULLY LIT SIGHT.**

**IF YOU ARE SIGHTING
WITH THE WRONG
EYE THE SIGHT
WON'T APPEAR LIT.**

MAGNI-OPTICS® TECHNOLOGY

Conquer Cross-Eye Dominance & the Field

Does cross-eye dominance have you missing shots? Our patented Magni-Optics® Technology is just what you need to stay on target shot after shot. No other shotgun sight on the market combines a LitePipe with a unique magnifying chamber and lens to correct cross-eye dominance issues. This proprietary design improves the performance of cross-eye dominant shooters by encouraging both-eyes-open shooting.

The use of magnification ensures that the lighted sight picture is only visible when the shooter uses the correct sighting eye combined with the proper head and shooting position. Just as if you were looking through a rifle scope, only the shooting eye can see through the scope, only your shooting eye will see the LitePipe.

magniOptics

Cross-eye dominance is an issue that affects more than 40% of shooters, Magni-Optics allows cross eye dominant shooters to shoot with both eyes open using their non-dominant eye.

SEE PAGE 29 FOR PRODUCT INFORMATION.

RIFLES

ADJUSTABLE SIGHTS

HIVIZ® offers LiteWave® front sights combined with adjustable rear sights for many popular Henry Rifles and the popular Ruger 10/22. Also, check out our Universal Rear Sight to bring your shooting to the next level!

SHOOTING TIP

FOCUS

Shotgunners focus on their target and are aware of their sights, but it's just the opposite for handgunners.

Most combat and defensive handgun instructors preach "focus on your front sight and blur your target." Front sight acquisition and focus are tremendously aided by a bright, highly visible front sight.

Practicing and using the hard focus on the front sight will allow one to shoot more quickly and more accurately. Try it the next time you go to the range to practice and compare your speed and accuracy to any other method.

MAGNETIC

HIVIZ® MAGNETIC SIGHTS: BRIGHT AND EASY TO INSTALL

WHEN YOU'RE LOOKING FOR THE BEST, TRUST THE ORIGINAL.

In 1996, HIVIZ® created the original magnetic shotgun sight and continues to be the industry leader in this category. HIVIZ magnetic shotgun sights use powerful, rare-earth magnets to attach sights easily yet firmly to the rib of nearly any shotgun. Featuring easily replaceable LitePipes

in multiple colors, HIVIZ has a magnetic shotgun sight that is perfect for you.

- Attaches directly behind factory bead
- Available in a variety of styles, colors and sight diameters for every shooter's preference

NOTE: Sight must fit your exact shotgun rib width for proper installation. Not compatible with carbon fiber or aluminum ribs.

SHOOTING TIP

VISUAL FOCUS

Competitors at the top of their game have learned the vital importance of hard focus on their target. The proper visual technique is to pick a specific target or bird and focus intently on it. If it's a game bird one's focus should be on its head **(1)**. On clay targets one should focus on the leading edge **(2)**. This intense focus should be maintained through the delivery of the shot including follow-through. For the hunter this means staying focused on one bird until you see it take the shot and then go after the second bird for a double. Likewise, the target shooter should maintain focus on the first target until it starts to break apart or it is clear that it was missed. Using intense specific focus will result in far fewer misses.

SHOOTING TIP

CO-WITNESSING

Co-witnessing uses one sight system to zero or confirm zero of another sight system. In this tip, we are using back-up iron sights to co-witness an optic device because optic devices are susceptible to damage or failure. Co-witnessing an optic AR2008 makes it viable to switch an optic device between rifles or for confirming zero if the optic has been removed or suffered damage.

First, ensure zero of HIVIZ front/peep rear sights **(1)** at the desired range (usually zeroed at 25 yards and confirmed at 100 yards). Next, install the optic device and view the dot through the peep sight with the HIVIZ sight centered as if shooting **(2)**. Adjust the optic device until the dot is superimposed or forms a figure 8 on the HIVIZ front sight **(3)**.

Take your first shot using the optic device. Raise your head until the dot appears in the center of the optic **(4)**. Test fire to confirm point-of-impact at 100 yards and make any minor adjustment necessary.

HIVIZ® PRO STAFF 2022

THE CHOICE AMONG THE BEST IN THE WORLD

Members of the HIVIZ® Pro Staff have won many major national and international championships in their respective disciplines, and continue to rack up accomplishments every year. Many of the world's top competitive shooters, instructors and hunters rely on HIVIZ sights as they dominate on the range and in the field. Each year HIVIZ works to deliver effective and innovative sights to give our Pro Staff, as well as our customers, the tools to win!

HIVIZ® Shooting Systems has always had a vision to improve the sport of shooting. Our goals are simple: break more targets, harvest more game, punch more holes in the 10-ring and have fun doing it! Whether it's in the field, at the range, or for personal defense, HIVIZ has a sight to offer for a broad selection of shotguns, handguns and rifles. Innovative, bright and durable; you can depend on HIVIZ when it matters most. Shoot better. Shoot with confidence. Shoot HIVIZ Shooting Systems.
